

Size Matters

- ❖ Does a small, cohesive campus of 250-300 students seeking a new pathway and venue to complete their graduation plan appeal to you?
- ❖ Do you have a special love for students who need a second chance?
- ❖ Are you mission-minded about guiding students to the graduation stage in spite of the obstacles they may have in their personal backgrounds?
- ❖ Could you embrace the opportunity to work with 55 faculty and staff members, each of them passionate about helping students to become the best versions of themselves?

If you answered “YES!” to any of these questions, maybe you need to check out the newly opened (August 2019)
